Summary

I'm a curious mind and creative spirit with a passion for using technology to make a meaningful impact. With a background in Computer Applications and hands-on experience in web development, data visualization, and cloud technologies, I thrive on solving real-world problems through data, design, and development. I approach every project with a balance of logic and creativity—whether it's building interactive websites, analyzing data for smarter decisions, or streamlining workflows. Driven by continuous learning, collaboration, and a desire to create technology that feels human, I aim to build solutions that not only perform well but also deliver lasting value.

Skills

Programming Languages: SQL, HTML, Django
Tools: Tableau, Power BI, Git, Jupyter Notebook, Canva, WordPress, Figma
Competencies: Automation, Data Visualization, Workflow Optimization
Soft Skills: Critical Thinking, Collaboration, Communication

Education

Bachelor of Computer Applications 2025 Expected
St.Claret College - (NEP - Bangalore University), Bengaluru, India CGPA: 7.66
Relevant coursework: Data Science, Operating Systems, Software Engineering

2PUC CEBA 2022
St. Claret PU College 78%
Relevant coursework: Computer Science, Economics, Business Studies, Accountancy

SSLC 2020
Velankanni Matric Hr Sec School, Bargur, Tamil Nadu 98%

Certifications

Professional Certifications:

- IBM SkillsBuild Certification – Cloud Computing, Data Analytics
- Advanced Excel and Data Analysis Certification – STP Computer Education
- DCA Certification – STP Computer Education (MS Office, Advanced Excel, HTML)

Additional Certifications:

- Edunet Foundation Certification – IBM Cloud Applications

Recognitions

- 1st Place:** Interactive Website Development – St. Claret College
- 1st Place:** Creative Poster Design – R.R. Institute
- 2nd Place:** Poster Presentation – Surana College

Volunteering

- National Service Volunteer:** Organized events and activities promoting social welfare and teamwork.

Work Experience

Web Development Intern *Zidio* **Feb 2025**

- Worked on real-time **full-stack** web development projects.
- Developed frontend & backend components, ensuring seamless integration.
- Technologies Used:** HTML, CSS, JavaScript, React, GitHub.

Intern *EY Global Delivery Services* **Feb 2024 – Apr 2024**

- Developed a data analysis model that improved client efficiency by 70%.
- Processed and visualized data using **SQL and Tableau**.
- Technologies Used:** Google Colab, SQL, Tableau.

Intern *IBM Cloud* **Feb 2024**

- Completed training in **cloud computing and software development**.
- Worked on cloud-based solutions using **IBM Cloud** tools.
- Technologies Used:** IBM Cloud, AI integration.

Academic Projects

Interactive Tedx Event Management Platform *St. Claret College, Bangalore*

- Built a dynamic system to streamline **event ticketing & visitor tracking**.
- Integrated **CSV/XLSX export** functionalities for efficient data handling.
- Technologies Used:** WordPress, WooCommerce, Elementor.

Technovent Events Platform *St. Claret College, Bangalore*

- Developed a **user-friendly platform** to manage inter-college competitions.
- Technologies Used:** HTML, CSS.
